Revision History

Revision Number	Revision Date	Summary of Changes	Changes marked
(#)	(-)	(Describe change)	(N)
1.0	15.05.17	Original Version by Katja Denefleh	
1.1	18.05.17	Added Summary for SMS-GSE-Requirements	
1.2	1.12.18	Update of States for the actual Requirements Renar Grun.	

1.   *RFE usage*

The following few pages describes how to get access to the Request for Enhancement pages of IBM.
In addition it is explained how to connect to the GSE Storage management requirements.

1.1.   INVOKE THE RFE SITE

Please use the following link to access the RFE sites from IBM:

https://www.ibm.com/developerworks/rfe/

Otherwise you can also use a search engine with the keywords: IBM RFE.
This is the entry web site, please select "GROUPS" as indicated.

Then you get the following picture:

Groups

| Overview | Search | Submit | Releases | My stuff | Groups | Help |

Groups | Create a new group

This page displays your groups and all the publicly available groups in the RFE Community. Select what you want to see and click Submit.

Display: My groups ▼

Submit

ⓘ You do not currently belong to any groups. You can select to display "All public groups" and request to join a group or you can create your own group.

Spotlight
→ Announcements
→ Give us your feedback

Brands
→ All brands
→ Analytics Platform
→ Business Analytics
→ Cloud
→ Commerce

Select then in the "MY GROUPS" section, the

My groups ▼
All public groups
My groups

ntly belong to any groups. You can select to

"all public groups" as indicated – and press Submit. Then you get the overview with all groups. Go to the page where you find the GSE Storagemgmt group and press the button "request to join the group":

Then you get a confirmation that you joined the group.

Press Continue to go to the entry panel again.

2.   *Vote for a specific RFE*

Once you are part of a group you can either get detailed information by pressing the "groupname" – or you can go directly to the Watchlist, by pressing "WATCHLIST" :

Press Watchlist, and you will get all the open RFEs with the possibility to vote.

Filter by category	Add request	Rank requests

No category has been defined.

Sort by: **Rank** | **Date** | **Headline** | **Status** | **ID** | **Votes**   Order: **Ascending** | **Descending**

3 votes

✔ Vote

Option to enhance ANR3654W Inventory file expiration when not using replication (90940)
Last updated: 09 May 2017
Categories: <No category>
Voted by 3 members
Submitted   Tivoli Storage Manager (TSM) Family

The ones marked with an "arrow" you have already voted. The ones with a check mark are not yet voted by you.
If you press the "VOTE" – your vote will counted and the checkmark will be replaced by the arrow.

The list of all requests are summarized in following table:
If the links are not working Please cut and paste the the link in the url-row in your browser.

Umfeld	Kurzbeschreibung	Link	Status
Mainframe SMS	DFRMM: TSO Cmd for large Number of Tapes	ID=90192	Uncommitted Candidate
	No Hyperswap readiness until rebuilt of SSSCB device table	ID=68124	Uncommitted Candidate
	Opportunity to set the data tier in the DASD Subsystem using DFSMS	ID=68171	Uncommitted Candidate
	RMF Reporting for autotiering tier inter/intra tier migration	ID=68174	Declined
	RMF Reporting for Flash Copy and other Backround activity	ID=68176	Declined
	RMF Reporting for autotiering tier placement for logical volumes	ID=68177	Declined
	Set MSR data set responce time targets for automatic tiering	ID=68184	Uncommitted Candidate
	Separate synchronuous and asynch. activity in RMF 74.8 Link Statistics	ID=68184	Declined
	Use SMFID in addition to systemname in all RMF records	ID=68186	Declined
	Add Service Class to more RMF-Recods	ID=68188	Uncommitted Candidate
	Add SSID and CCA for each device in RMF 74.1 and DCOLLECT	ID=68189	Uncommitted Candidate
	Update SMF42 data set activity record with recent counters	ID=68191	Delivered
	Support for Windows 10 clients on DFS/SMB server in Z/OS	ID=98174	Declined

	ACS Routine write Information to Dataset	ID=100838	Uncommitted Candidate
	Support Windows 10 Client on DFS/SMB Server in Z/OS	ID=98174	Declined
	ISMF/ACS Testpanel doeas not have the possibility to test USER_ACSVAR 2 & 3	ID=108983	Planned for Future Release
	All data set attributes shall be selectable in the Dataclass	ID=119068	Planned for Future Release
	Replace CBRUXSAE OAM security exit with RACF STGADMIN profiles	ID=120663	Uncommitted Candidate
	Support for non paged mechanism in IBM CSM Flash Copy Manager for z/OS (CSMFCM)	ID=124792	Under Consideration
	ICKDSF REFORMAT SUBCHSET(subchset-identifier)	ID=126512	Submitted
	Verify PPRC Consistency Group Settings in CSM	ID=126835	Submitted
	CSM LDAP authentication with native RACF/SDBM	ID=127410	Submitted
Open Allg.	RAS Enhancements for Spectrum Scale mmchnsd	ID=97799	Delivered
	Report fragmentation of an specific in scale filesystems	ID=103582	Information provided
	mmbackup enhancements in spectrum scale	ID=121687	Submitted
	mmchconfig maxblocksize is not dynamicly changeable in spectrum scale	ID=125603	Under Consideration
	Native LDAP for DS Storage	ID=106375	
	Native LDAP Support for DS8000	ID=127079	Submitted
Spectrum Protect	Option to enhance ANR3654W Inventory file expiration when not using replication	ID=90940	Submitted
	Deliver sha2 and md5 hash for software downloads	ID=89973	Submitted
	TSM4VE backup schedule ends with RC=12 when there is no guest eligible for backup	ID=86152	Under Consideration
	Combine snappdiff and SM2T as complete backup solution	ID=81386	Declined
	TDP for ERP - Support Oracle 12c	ID=72485	Planned for Future Release

	Warning message in actlog when active log exceeds Threshold	ID=60822	Uncommitted Candidate
	Multisession replication of big file	ID=55368	Planned for Future Release
	Tivoli Fastback for Windows 2012 and exchange 2013	ID=50839	declined
	one way password implementation on tsm server	ID=34973	Declined, but deliverd through TLS
	Avoid restore from copy pool when primary pool is of type vtl	ID=27245	Uncommitted Candidate
	Point in time restore facility	ID=27244	Uncommitted Candidate
	ODBC Enhancements for TSM 6.3	ID=27243	Declined
	TSM Client support for Solaris	ID=27242	Declined
	Multi Vendor Support for Snapshots in FCM/TSM	ID=33561	Planned for Future Release
	selectable DIO/nonDIO-Support on Stoagepools	ID=58238	Uncommitted Candidate
	FlashCopy Manager support for Solaris 11	ID=60824	Declined
	TSMVE UI Support for multiple Spectrum Protect server Instances	ID=95590	Uncommitted Candidate
	Centralized include/exclude list for VM Backups	ID=73983	Planned for Future Release
	Verify Managment Class Constraints on Node Migration	ID=93682	Uncommitted Candidate
	Provide container pool data protection on same SP instance on DISK/NAS Devices	ID=96056	Submitted
	NDMP to TSM-Server (NAS filer to server) - enable simultaneous write	ID=72787	Under Consideration
	Central Configuration of enable instrumentation parameter by client option set	ID=96739	Uncommitted Candidate
	Multi session restore from container pool should result in load balanced session	ID=98409	Uncommitted Candidate

Run enduser file level restore with restricted privileges	ID=99559	Uncommitted Candidate
Support Node Replication with SSAM	ID=53258	Under Consideration
Avoid filespace lock used by export server/node	ID=96445	Submitted
Add backup storage reporting on TSM Policy Domain level to OC	ID=69951	Uncommitted Candidate
TSM OC reporting issue with DB size of TSM instances in GPFS Cluster	ID=90605	Submitted
Deligate Task (migration) to data mover servers	ID=77906	Planned for Future Release
Data Integrity Verification during storage pool hierachy (copy/migration)	ID=79665	Uncommitted Candidate
Optimize migration algorythm of seq. storagepool to collocated stg	ID=101444	Submitted
Less Tape commits with server procs like Backup stg, Migration and Reclamation	ID=101746	Declined, but in 8.1.5 u. 8.1.6 delievered
Missing Errors messages whem silent installation of SP for VE Recovery Agent fails	ID=104554	
one way password implementation on tsm server	ID=104796	Submitted, trough TLS delivered
Global switch on/off client instrumentation trace in Server Node or Cloptset	ID=104534	Submitted
TSM-Server Support for Ontap NDMP CAB Feature	ID=60432	
Request for a Server option to prevent the server to pass the communication options for a replication target to a client	ID=105152	Submitted
Segregation of Duties in Sprectrum Protect Server	ID=105531	Uncommitted Candidate
Backup of encrypted vSphere 6.5 environments	ID=106925	Uncommitted Candidate
Easy Read/Write failover for a replicated node	ID=107699	Uncommitted Candidate

	IBM Spectrum IBM Spectrum Protect Replication to 3rd SP Server and/or Public Cloud Storage	ID=109500	Uncommitted Candidate
	Need web client support in IBM Spectrum Protect V8.1.2 or later server.	ID=111699	Uncommitted Candidate
	maxruntime parameter does not honor admin schedules with wait=yes	ID=114205	Submitted
	IBM Redbooks for IBM Spectrum Protect / IBM SpectrumProtect Plus	ID=118412	Uncommitted Candidate
	export to tape from directory-container storage pools	ID=118791	Planned for Future Release
	different failoverhladdresses for nodes	ID=118788	Uncommitted Candidate
	On install OC accept unaccepted characters in the password , installation fails later on	ID=118668	Planned for Future Release
	Data Protection for VMware Support for vSphere 6.7	ID=119114	Delivered
	VMPROCESSVMWITHPRDM under SPP	ID=119097	Uncommitted Candidate
	Select which management class for offload backup is used	ID=119126	
	Tool to reset damaged files without "audit volume"	ID=119187	Declined
	Do not register mount proxy nodes in configuration wizard	ID=119175	Declined
	RFE: Chargeback reporting in SPP	ID=119247	Dublicate
	Spectrum Protect for VE backup report	ID=119265	Submitted
	Remove SP server startup dependency on availability of LDAP URL and implement recurring probing of LDAP access	ID=119348	Planned for Future Release
	Better performance/parallelism on generate dedupstats	ID=119557	Submitted
	audit container markdamaged needs to update inventory objects as damaged	ID=119624	Submitted
	Dedupstats continuous update	ID=119589	Submitted
	Add extra filesystem check in linux BA client	ID=119651	Submitted

	Login with certificates during file indexing on Linux	ID=119749	Planned for Future Release
	IBM Spectrum Protect Plus Backup of an Individual VM in an SLA Policy	ID=119898	Planned for Future Release
	Add hyperlinks from status icons on SPP Dashboard	ID=120031	Planned for Future Release
	Disable ransomware alert for specific nodes	ID=120082	Planned for Future Release
	Enhancment to replicate node commando to only replicate nodes in send or sendsync mode	ID=100363	Submitted
	Allow SP Plus backups to Spectrum Protect server w/o requiring a backup to the vSnap storage first	ID=120171	Declined
	File Recovery Options in SPP	ID=120188	Uncommited Candidate
	VMware Tags support in SPP	ID=120189	Uncommited Candidate
	Ability to configure start time for SPP "inventory" jobs	ID=120190	Uncommited Candidate
	Decomission of VM	ID=120196	Uncommited Candidate
	Ability to use VMware backup to recover SQL database	ID=120193	Declined
	vSphere Web Client Integration	ID=120191	Uncommited Candidate
	Restart failed backup	ID=120194	Planned for Future Release
	REPLICATE NODE needs a DURATION option	ID=120203	Submitted
	Spectrum Protect Plus - Office365 support needed	ID=120995	Planned for Future Release
	Spectrum Protect Plus User Experience Enhancements	ID=121092	Uncommited Candidate
	Spectrum Protect Plus Direct Offload to Spectrum Protect	ID=121091	Declined
	FLR from VM target replicated via Vsnap	ID=121085	Uncommited Candidate
	IBM Spectrum Protect Plus Reporting using VM Tagging	ID=121127	Uncommited Candidate

add functionality to audit container command	ID=121134	Submitted
Exclude File System Type	ID=121572	
Add error handling to dsmc to avoid looping asking questions to non-existent terminal	ID=121773	Planned for Future Release
SP+ Syslog alerting	ID=121905	Delivered
SP Plus interface enhancement: vm search and selection	ID=121903	Uncommitted Candidate
SP Plus interface enhancement: job monitor	ID=121904	Uncommitted Candidate
Progress bar for Node Replication	ID=122136	Submitted
Operation Center Client Deployment Support for Ubuntu/Debian	ID=122185	Declined
Mailbox Item Level restore	ID=122141	Submitted
Storage pool Protect query	ID=122138	Delivered
Admin User Creation Segregation of Duty	ID=122309	Submitted
Spectrum Protect KMIP support for encryption	ID=122299	Uncommitted Candidate
Directory-container stgpool protection using cloud-container stgpools	ID=122461	Uncommitted Candidate
New OS & Oracle version support for SPP	ID=122566	Declined
Expire individual backups in Spectrum Protect Plus	ID=122707	Dublicate
IBM SPP Support for Non-AD LDAP servers	ID=122821	Uncommitted Candidate
IBM SPP to show daily replication throughput	ID=122869	Uncommitted Candidate
ReFS and S2D support for Spectrum Protect server on Windows	ID=122884	Submitted
Allow for more than 1 concurrent expiration processes	ID=122953	Submitted
Add Nutanix Acropolis AHV as supported SPP Hypervisor	ID=123041	Uncommitted Candidate
Add virtualmountpoint support for Spectrum Protect for Space Management on Spectrum Scale servers	ID=123088	Declined
Spectrum Protec for VE Change Last Backup Field in vCenter	ID=123181	Submitted

	Allow REPLICATE NODE against DECOMMissioned nodes	ID=123394	Submitted
	Operations Center does not allow a Container-Copy to be defined on a Directory Pool which Node Reps to a server using Cloud	ID=123545	Uncommitted Candidate
	ISP4VE- Additional Tagging documentation for powershell	ID=123674	Delivered
	Spectrum Protect Plus - Introduce new Replication Only SLA	ID=123777	Uncommitted Candidate
	SPECTRUM PROTECT VMWARE REPORTING BY VMWARE FOLDER	ID=123966	Declined
	Allow SLA jobs to be run only by external tools rather than the SPP scheduler	ID=124162	Uncommitted Candidate
	Include SNMPD in appliance	ID=124154	Planned for Future Release
	backup individiual vm within current sla	ID=124084	Dublicate
	Spectrum Protect PLUS support RedHat v5.9	ID=123178	Declined
	Trigger email/report when sla run contains failed vms	ID=124200	Uncommitted Candidate
	Delete a single VM or data backup in SPP	ID=124216	Dublicate
	SLA policy without schedule in SPP GUI	ID=124442	Dublicate
	Add VMware Tape support to ISP Server	ID=124496	Uncommitted Candidate
	Move filespace to another node	ID=124364	Declined
	Proxy Support for Spectrum Protect Operation Center	ID=117485	Uncommitted Candidate
	CANCEL PROTECT or DURATION on PROTECT STGPOOL	ID=125342	Submitted
	Logfiles that would include all execution outputs	ID=126109	Declined
	Spectrum Protect Operations Center Security Exposure IBM-OC Administrator	ID=126121	Submitted
	Data Protection for VMware vSphere GUI configuration mode checkbox should be UNCHECKED by default.	ID=126351	Planned for Future Release
	Support for vCenter 6.7 U1	ID=126945	Planned for Future Release

	Spectrum Protect Plus - Support of Oracle Database on Windows Server	ID=127107	Uncommitted Candidate
	include a record in SPserver SUMMARY_EXTENDED for missed scheduled (successful=no)	ID=127043	Uncommitted Candidate
	Add vSnap Utilisation to the 'Protected VMs Report'	ID=126899	Dublicated
	tsmdlst for direct attached SCSI libraries/drives	ID=126873	Uncommitted Candidate
	Backup of VMware Custom Atributes	ID=126675	Uncommitted Candidate
	Select datastore per VMDK during restore	ID=126668	Uncommitted Candidate
	SPPlus : restore VM to my cloud provider	ID=126381	Uncommitted Candidate
	SP Plus KMIP support for encryption	ID=126383	Uncommitted Candidate
	Improve performance when retrieving partial tapes by using Recommended Access Order on supported tape drives	ID=110697	Uncommitted Candidate
	Properly manage Archive Mode flag in TS1150/TS1155 tape drives	ID=127442	Submitted
